READY FOR IMMEDIATE RELOCATION: UAE / GCC, India & Worldwide

3+ Years	300+ Clashes/Wk	LOD 100 – 350	100% Quality
COMBINED INDUSTRY EXP.	RESOLVED IN REVIT/NAVISWORKS	STRUCTURAL BIM MODELING	FIELD QA/QC & STANDARDS

EXECUTIVE SUMMARY

High-performing **Civil BIM Engineer** with **3+ years of combined engineering expertise**, seamlessly bridging **2+ years of hands-on civil site/field engineering & QA/QC leadership** with **1+ years of dedicated BIM modeling and digital coordination**. Proven expertise in developing 3D Structural and Architectural BIM models (LOD 100 to LOD 350) using **Autodesk Revit, Navisworks Manage, and AutoCAD**. Specialized in multi-disciplinary clash resolution, IFC interoperability, structural shop drawing extraction, Scan-to-BIM, and FEA seismic modeling (ABAQUS). Leverages deep concrete technology knowledge and BIM automation tools (Dynamo, pyRevit) to eliminate site conflicts, optimize design mix recipes, and accelerate project delivery under international and UAE building codes.

CORE COMPETENCIES & TECHNICAL SOFTWARE SUITE

BIM & Drafting Tools:	Autodesk Revit (Architectural, Structural), Navisworks Manage (Clash Detection & Coordination), AutoCAD, SketchUp (Conceptual 3D Modeling), Autodesk Construction Cloud (ACC / BIM 360), Autodesk Issues Add-In
BIM Workflows & Production:	Multi-Disciplinary Coordination, IFC Data Exchange & Interoperability, Structural Shop Drawings Extraction, Quantity Take-Offs (QTO), LOD 100–350 Modeling, Scan-to-BIM, CAD-to-BIM, 2D to 3D Conversion, Rebar Detailing, Worksharing & Central File Setup, ISO 19650 Compliance
BIM Automation & Scripting:	Dynamo Visual Programming (Visual Scripting & Parameter Automation), pyRevit (Python-based Custom Toolbars & Drafting Speedups)
Structural Analysis & FEA:	ABAQUS (Nonlinear Pushover Analysis & Cyclic Hysteretic Analysis for Seismic Behavior, Eigenvalue Analysis, Incremental Dynamic Analysis), ETABS, STAAD.Pro, Tekla Structures, 3Ds Max
Geospatial & Civil Engineering:	QGIS (Geographic Information Systems), Concrete Technology & Advanced Concrete Technology, Design Mix Optimization, Admixtures & Quality Control, Material Testing, Structural Integrity Assessment
Project Management & IT:	Laboratory Operations & Equipment Calibration, MS Office Suite, Computer Hardware & Software Maintenance

PROFESSIONAL EXPERIENCE (3+ YEARS COMBINED ENGINEERING)

BIM Engineer — START BIM ENGINEERING CONSULTING SERVICES LLC	Aug 2025 – Present
Abu Dhabi & Ajman Projects, UAE (1+ Years Pure BIM Experience)	
- Lead 3D BIM modeling and multi-disciplinary coordination for complex structural and architectural packages in Revit and Navisworks Manage following UAE building standards. - Managed and resolved 300+ interdisciplinary model issues weekly using Autodesk Issues Add-In, reducing spatial coordination cycle time by 15%. - Spearheaded Scan-to-BIM and CAD-to-BIM workflows, collaborating with multi-disciplinary teams to convert point cloud data and legacy 2D CAD drawings into intelligent 3D BIM models (LOD 100 to LOD 350) for architectural and structural domains. - Executed efficient 2D-to-3D conversions utilizing specialized add-ins, streamlining the modeling process and ensuring seamless transformation of legacy design documents. - Performed rigorous clash detection and spatial coordination using Navisworks Manage on international projects, identifying conflicts and issuing matrix reports to safeguard model integrity. - Generated fabrication-ready Structural Shop Drawings, detailed sheet sets, schedules, rebar placement details, and precise quantity take-offs (QTO) extracted directly from central models. - Spearheaded IFC drawing export and schema validation to maintain seamless design interoperability across GCC architectural, structural, and civil engineering teams.	
QA/QC R&D Engineer — GPS RMC	12/02/2025 – 28/07/2025
Pune, Maharashtra, India (Field & Materials QA/QC)	
- Managed laboratory and field quality control operations, equipment calibration, and test result documentation with 100% compliance to IS/ASTM standards. - Formulated high-performance concrete recipes, design mixes, and introduced novel admixtures, boosting concrete quality/strength by 50% and improving concrete performance by 25%. - Implemented modern non-destructive material testing techniques, enhancing testing efficiency by 60% and assessment accuracy by 30%.	
Lab Expert & In-Charge — ARCO Cements	01/05/2024 – 30/09/2024
Jammu & Kashmir, India	
- Managed laboratory operations, equipment calibration, and test result documentation by 100%. - Supervised a team of 07 technicians to maintain consistency in cement formulation and physical/chemical testing.	

- Implemented modern testing techniques, improving accuracy in material assessment by 20% and increasing testing efficiency by 40%.

QA/QC Engineer (Promoted) — SP Concare Pvt. Ltd. & CWC Chemicals Pvt. Ltd

01/07/2023 – 30/04/2024
Pune & Mumbai, Maharashtra, India

- Led quality assurance processes, ensuring 100% compliance with industry standards and structural project specifications.
- Enhanced concrete mix designs to improve structural durability, reducing total material waste by 15% and reducing project delays by 10%.
- Transformed testing procedures by implementing modern lab techniques, increasing overall testing efficiency by 20%.
- Collaborated with cross-functional teams to identify and resolve construction defects on site.
- Analyzed concrete test results from over 120 samples to identify quality control issues, implementing corrective measures that enhanced product integrity and structural reliability.

Department of R&D Trainee Engineer — SP Concare Pvt. Ltd.

01/07/2023
Pune, Maharashtra, India

- Assisted in research and development of advanced construction chemicals, improving product performance by 15%.
- Supported senior engineers in quality control and product formulation improvements by 100%, preparing 17 technical reports and documentation for R&D findings.
- Optimized concrete mix designs, reducing material costs by 10% while contributing to a 20% improvement in product consistency and durability.

Graduate BIM Engineer Intern — Borgward Technologies

Apr 2023 – Oct 2024
Pune, Maharashtra, India

- Supported the development and detailing of 3D structural (Concrete, Steel, Precast, Rebar) and architectural models in Revit as per ISO 19650 information process stages.
- Assisted in the extraction of comprehensive 2D structural CAD sets, drawing sheets, schedules, and material take-offs (QTO) from BIM models.
- Contributed to clash detection running preliminary Navisworks reports and performed routine model maintenance tasks including custom family (component) creation, view template setup, and sheet organization.
- Gained practical experience applying Level of Development (LOD) specifications and participated in project coordination meetings, documenting action items.

KEY PROJECTS & ENGINEERING ACHIEVEMENTS

PG07 - Public Parks & Garden with Underground Civilian Shelter Facilities (Plot Area: 25,437 m²) | Liwara 1, Ajman / Abu Dhabi, UAE

Modeled complex structural foundation slabs and underground protective civil structures using Revit & Navisworks Manage. Coordinated IFC models, executed interdisciplinary clash resolution, and produced structural shop drawings.

PG05 - Mohammad Bin Zayed-1908 Majlis Garden with Underground Protection Facilities | Ajman, UAE

Executed detailed 3D structural modeling, rebar detailing, foundation coordination, and clash-free interdisciplinary BIM management.

Dubai Marina 3M High-Rise Residential Building | Dubai, UAE

Developed detailed Revit model for superstructure and architectural components flat-wise (LOD 350). Performed clash detection and coordination for complex transfer slab levels, contributed to Scan-to-BIM verification for foundation and core-wall alignment, produced fabrication-ready details for key structural connections, and managed model in BIM 360 environment.

Design & Drafting Projects | Jammu & Kashmir, India

Designed and drafted 2D plans/elevations for Guru Nanak School (Tral) and Residential Building (Srinagar). Created 3D Revit models for residential building at Srinagar and designed Pile Foundation at Srinagar.

Exploring Lateral Load Resisting Ability of Steel Slitted Shear Walls Retrofitted with Moment Resisting Frame | B.E. Thesis Project

Executed finite element modeling using ABAQUS software. Performed Eigenvalue analysis, Nonlinear Pushover analysis, Incremental Dynamic analysis, and Cyclic Hysteretic load analysis to evaluate structural seismic behavior and energy dissipation.

PROFESSIONAL CERTIFICATIONS & CONTINUOUS SKILL DEVELOPMENT

Autodesk Revit Structure corporate Training
Koenig Solutions (Autodesk ATC)
AUTODESK

Ongoing training covering project setup, structural framing (columns, beams, trusses, mat/isolated/strip foundations), 3D Rebar detailing (area, path, stirrups, ties, constraints, cover settings), central worksharing, custom parametric family creation, and IFC/DWG drawing exports etc.

Certificate in QGIS (Geographic Information Systems)
IIT Bombay (Spoken Tutorial)
IIT BOMBAY

Mastered spatial data analysis, GIS mapping, georeferencing, vector/raster data integration, and terrain modeling for civil engineering site planning.

Professional Civil Engineering Design Software Certification
Borgward Technologies, Pune
PROFESSIONAL

Mastered AutoCAD, Revit (Architectural/Structural), Navisworks, ACC, ISO 19650 BIM Information Process Stages, ETABS, STAAD.Pro, Tekla Structures, 3Ds Max, and ABAQUS.

Advanced Diploma in Computer Applications (ADCA)
STP Computers, New Delhi
DIPLOMA

Proficient in computer software applications, hardware diagnostics, database entry, and office productivity tools.

Advanced BIM Automation & Modeling Mastery
YOUTUBE Professional Tracks
ONGOING SELF-DIRECTED LEARNING

Self-Directed Learning / YouTube Professional Engineering Tracks

- **Dynamo Visual Programming:** Learning visual scripting to automate repetitive Revit modeling tasks, parameter synchronization, rebar generation, and batch schedule creation.
- **pyRevit:** Mastering Python scripts and custom add-in toolbar creation to accelerate Revit drafting workflows, view cleanup, and sheet

production.

- **SketchUp:** Developing rapid 3D conceptual massing, architectural visualization, and initial geometric models for client presentations prior to BIM conversion.

FIELD INTERNSHIPS

PWD R&B Intern | March 2022 – May 2022

Understood structural design and detailing of building construction and RC framed structures.

PWD R&B Intern | Nov 2020 – Jan 2021

Understood design, detailing, and driving of Pile foundations and RC framed structures.

EDUCATION

Bachelor of Engineering (B.E.) in Civil Engineering	Government College of Engineering & Research, Pune SPPU (Aug 2019 – Apr 2023)	CGPA: 7.9 / 10.0
